PROFESSIONAL SUMMARY

Full-Stack Developer and Software Engineering student with hands-on experience designing, developing, and deploying modern web applications that solve practical, real-world problems. Experienced across frontend and backend development, including responsive interfaces, REST APIs, authentication, database integration, server-side development, and deployment. Built and deployed multiple applications including an artisan-to-customer platform, a public-interest news aggregation platform, an e-commerce application, and an attendance management system. Passionate about using software engineering to solve local problems and building reliable applications that can grow.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Next.js, Tailwind CSS, Responsive Web Design

Backend: Node.js, Express.js, NestJS, REST API Development, Server-side Development

Databases: MongoDB, Mongoose, SQL

Security: Authentication, Authorization, Password Security, Web Application Security

Tools & Deployment: Git, GitHub, Vercel, Render, API Integration

SELECTED PROJECTS

AMANA — Artisan & Customer Platform

Full-Stack Developer | amana-frontend-five.vercel.app

A platform designed to connect customers with trusted and professional artisans in Nigeria, helping skilled workers reach customers while making it easier to discover and contact reliable service providers.

- Designed and developed the full-stack application using Next.js and MongoDB.
- Built customer, artisan, and administrative interfaces and artisan profiles.
- Created functionality for customers to discover and communicate with artisans.
- Designed the platform around trust, service discovery, and customer-artisan connections.
- Deployed the frontend on Vercel and backend services on Render; tested with users.

Technologies: [Next.js](#), [MongoDB](#), [REST APIs](#), [Vercel](#), [Render](#)

NIGERIA PULSE — Public Interest & News Comparison Platform

Full-Stack Developer | www.nigeriapulse.site

A platform designed to help users compare topics emphasized by government sources with issues receiving attention from the public and media.

- Designed and developed both frontend and backend components.
- Built the homepage and information presentation interfaces.
- Developed backend functionality using Express.js.
- Implemented automated collection/scraping of information from approximately 20 media sources.
- Built, deployed, and tested the complete application.

Technologies: [Next.js](#), [Express.js](#), [Web Scraping](#), [REST APIs](#)

SHOPZONE — E-Commerce Platform

Full-Stack Developer | shopzone-frontend-flame.vercel.app

A full-stack e-commerce application providing an online shopping experience with supporting backend and database functionality.

- Developed both frontend and backend components.
- Integrated database functionality and backend APIs.
- Worked across the application lifecycle from implementation to deployment.

Technologies: Next.js, NestJS, MongoDB, REST APIs

ATTENDANCE MANAGEMENT SYSTEM

Full-Stack Developer | attendance-system-wine-one.vercel.app

A web-based attendance management system designed to digitize attendance collection and help lecturers manage student records.

- Built lecturer registration and authentication functionality.
- Developed attendance session creation and student submission.
- Implemented attendance record management and semester aggregation.
- Added result/score export functionality and attendance controls.
- Built and deployed the system as a full-stack application.

Technologies: Next.js, MongoDB, REST APIs, Authentication

PERSONAL DEVELOPER PORTFOLIO

Developer | personal-portfolio-538j.vercel.app

A personal portfolio website created to showcase development skills, projects, and professional work.

- Designed and developed a responsive portfolio to present projects and technical capabilities.

Technologies: HTML, CSS, JavaScript

EDUCATION

Northwest University, Kano

B.Sc. Software Engineering | 2024 – Present | Level 200 | Expected Graduation: 2028

Focus: Software Engineering, Programming, Web Development, Databases, Application Development.

Kano State College of Education and Preliminary Studies (CAS)

IJMBE / Preliminary Studies | 2019 – 2020 | Kano, Nigeria

CERTIFICATIONS

freeCodeCamp — Responsive Web Design Certification

freecodecamp.org/certification/msadam/responsive-web-design

Jobberman — Training/Certification

ADDITIONAL EXPERIENCE

Carpentry & Furniture

Practical experience in carpentry and furniture work, developing hands-on problem-solving, craftsmanship, customer interaction, project execution, and attention to detail.

COMMUNITY & INTERESTS

Community-focused software projects • Full-Stack Web Development • Backend Development • REST APIs • Database Systems • Cloud Deployment • Scalable Web Applications • Digital Innovation • Emerging Technologies
